SINOPSIS

The Magickal Botanical Oracle is born from a deep love of the green world as seen through the eyes of the Witch.

What you have with you is a system bringing together some of the most unusual, interesting, and magickal plants found in the Witch's world.

While not everyone is called to follow the path of the Witch and walk between the worlds, all people are special, each with unique gifts and talents to offer the world.

Likewise, all plants are special. The art of this grimoire is drawn to reach an understanding of the nature and personality of each plant, balanced with a deeper look at the magickal lore and medicine surrounding each herb. Contains a Oracle deck of 33 cards and a 224 pages color companion book.
